## Your invite to the East of England inhaler awareness campaign resources webinar 13<sup>th</sup> July, 19.30-20.30

Join us on Wednesday 13<sup>th</sup> July, 19.30-20.30 to hear about the resources that are now available to support the East of England inhaler awareness campaign.

Registration is on a first come first served basis.

### We will be covering the three key themes:

- Environmentally friendly inhaler choices and using the inhaler carbon footprint comparison tool.
- Your salbutamol inhaler is changing to a more environmentally friendly version Salamol.
- What should I do if I need to use my reliever inhaler often for my asthma?

We will provide you with the background to the campaign, show you where to find the resources and discuss how to use them in practice.

We also share new inhaler technique videos with their carbon footprint symbol.

The session will be recorded and will be freely available on the PrescQIPP website in case you can not make the date.

We look forward to seeing you then.
