CPH are reminded that they accepted in April 2018 the following guiding principles for members of the Committee:

- Accountability Members of CPH are accountable for their decisions and actions to contractors and the public and therefore submit to scrutiny.
- **Openness** Members should be as open as possible about all the decisions and actions they take. They should give reasons for their decisions, and restrict information only for short term tactical reasons, or when the wider public interest clearly demands.
- Honesty Members have a clear duty to declare any private interest relating to their CPH duties and take steps to resolve any conflicts arising.
- Leadership Members should promote and support the above principles by leadership and by example.
- **Representativeness** (Selflessness) members must reflect the interests of the contractors who elected or appointed them to CPH and must make decisions in the interests of the general body of contractors; they must not make decisions to gain financial or other material benefits for themselves, family or friends.
- Integrity members must not put themselves under any obligation that might influence their performance at CPH or their ability to reflect the interests of the contractors who elected or appointed them or to make decisions in the interests of the general body of contractors.
- **Objectivity** in making decisions and in carrying out the business of CPH members should act within the constitution and make decisions only on merit.
