

Acute Urinary Tract Infections (UTIs) in Primary Care

An online webinar to discuss the prevention and treatment of acute UTIs in Primary care

Date – Tuesday
25th June 2024
Time - 1-2pm
Via Teams

Are you a GP, Nurse, Pharmacy Professional, or other healthcare professional looking to improve your knowledge on UTIs? If yes, then join us as we discuss the treatment and prevention of acute UTIs in different patient groups.

Did you know;

- ***UTIs are one of the most common bacterial infections managed in General Practice, and are major drivers of antibiotic prescribing***
- ***UTIs are one of the leading causes of life-threatening E.Coli bloodstream infections in England and are a major contributor to the burden of antibiotic resistant infections***
- ***Over the last 5 years, UTIs have led to more than 800,000 admissions to hospitals***

If you would like to be sent an invite for this webinar then please email Alishah.lakha@nhs.net or naomifleming@nhs.net
