

- **Annual Pharmacist Review Template**

An extra question has been added to the “Other Current Medication and Adherence section”. The current template did not give the option to bypass this section if a service user was not on any other medication.

We now have a filter question:

Other Current Medication and Adherence

Are you taking any other medication (from your GP or purchased over the counter)?

Other medication? Yes No

If the service user answers “no” the option to add other medication is not available.

If the service user is taking other medication, then the “yes” option will be selected, and the additional questions will open:

- **Missed or Late Collection Template**

We have added a new date selection question where pharmacies can tell us when they last dispensed to a service user.

This is a **non-mandatory** question. This information will be helpful when managing risk and for safe prescribing. The question is a simple date selection.

The image shows a date selection interface. At the top, there is a text input field containing "02-Jul-2024". Below this, a calendar for July 2024 is displayed. The calendar has a header "July 2024" and a grid of days. The days of the week are labeled "Su", "Mo", "Tu", "We", "Th", "Fr", and "Sa". The dates are arranged in a grid: Row 1: 1 (Mo), 2 (Tu), 3 (We), 4 (Th), 5 (Fr), 6 (Sa); Row 2: 7 (Su), 8 (Mo), 9 (Tu), 10 (We), 11 (Th), 12 (Fr), 13 (Sa); Row 3: 14 (Su), 15 (Mo), 16 (Tu), 17 (We), 18 (Th), 19 (Fr), 20 (Sa); Row 4: 21 (Su), 22 (Mo), 23 (Tu), 24 (We), 25 (Th), 26 (Fr), 27 (Sa); Row 5: 28 (Su), 29 (Mo), 30 (Tu), 31 (We). The date 02 is highlighted in orange, indicating it is the selected date.
